

## AMENDMENTS TO THE CLAIMS

### Listing of Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Previously presented) A window treatment comprising:

a scalable preformed mold, the scalable preformed mold comprising one or more shaping contours;

a fabric covering adhered and conformed to the shaping contours of the scalable preformed mold, the fabric covering shaped to fit the shaping contours of the scalable preformed mold, wherein the scalable preformed mold further comprises one or more alignment tabs along an edge of the scalable preformed mold; and

one or more rod hooks integrated into the scalable preformed mold, the rod hooks attachable to any standard curtain rod.

2. (Cancelled)

3. (Cancelled)

4. (Original) The window treatment as recited in claim 1 wherein the shaping contours comprise one or more concentric humps.

5. (Original) The window treatment as recited in claim 4 wherein the one or more concentric humps are semi-circular.

6. (Original) The window treatment as recited in claim 4 wherein the one or more concentric humps are elliptical.

7. (Cancelled)

8. (Original) The window treatment as recited in claim 1 wherein the fabric covering further comprises one or more alignment tabs along an edge of the fabric covering.

9. (Original) The window treatment as recited in claim 1 wherein the scalable preformed mold is injection-molded.

10. (Original) The window treatment as recited in claim 1 wherein the scalable preformed mold is a rubberized material.

11. (Cancelled)

12. (Original) The window treatment as recited in claim 1 further comprising at least one additional scalable preformed mold, the additional scalable preformed mold abutting the shaping contours of the scalable preformed mold.

13. (Cancelled)

14. (Cancelled)

15. (Cancelled)

16. (Cancelled)

17. (Cancelled)

18. (Cancelled)

19. (Previously presented) A method for creating a window treatment, the steps comprising:

cutting a piece of fabric to match a pattern;

aligning the piece of fabric to a scalable preformed mold, the scalable preformed mold further comprising one or more shaping contours;

adhering the piece of fabric to the shaping contours of the scalable preformed mold; and

attaching a rod hook to the piece of fabric adhered to the shaping contours of the scalable preformed mold.

20. (Cancelled)

21. (Cancelled)

22. (Original) The method for creating a window treatment as recited in claim 19 wherein the scalable preformed mold is injection-molded.

23. (Original) The method for creating a window treatment as recited in claim 19 wherein the scalable preformed mold is a rubberized material.

24. (Original) The method for creating a window treatment as recited in claim 19 wherein the shaping contours of the scalable preformed molds comprise one or more concentric humps.

25. (Original) The method for creating a window treatment as recited in claim 24 wherein the one or more concentric humps are semi-circular.

26. (Original) The method for creating a window treatment as recited in claim 24 wherein the one or more concentric humps are elliptical.

27. (Cancelled)

28. (Original) The method for creating a window treatment as recited in claim 19 wherein the shaping contours of each scalable preformed mold comprise one or more perforations.

29. (Original) The method for creating a window treatment as recited in claim 28 further comprising the step of separating at least one shaping contour of at least one scalable preformed mold along at least one perforation.

30. (Cancelled)

31. (Cancelled)

32. (Cancelled)

33. (Cancelled)

34. (Cancelled)

35. (Cancelled)

36. (Cancelled)

37. (Cancelled)

38. (Cancelled)

39. (Cancelled)

40. (Previously presented) A kit for creating a window treatment, the kit comprising:

a scalable preformed mold;

a pattern to be used in conjunction with a fabric;

one or more rod hooks attachable to any standard curtain rod; and

one or more alignment tabs to be used in conjunction with a fabric.

41. (Cancelled)

42. (Original) The kit for creating a window treatment as recited in claim 40 further comprising an adhesive.
